FOR IMMEDIATE RELEASE

Dubai, 14th May 2014

Specialist Services new state of the art blasting booth

Specialist Services announces the new blasting booth built in their Jebel Ali Centre of Excellence

Dubai, 14th May 2014 – Specialist Services has built a new blasting booth in their Jebel Ali Centre of Excellence approved for operation by Dubai Municipality and Civil Defence.

Specialist Services strives hard to minimise risks which impact life, assets and environment. They constantly upgrade their facilities to meet recommended good practices and applicable regulatory requirements. As a step in this direction, they have built a blasting booth (33.65 metres long, 13.7 metres wide and 6.5 metres high) which allows them to blast about six 20ft modules per shift on an average.

This state of the art blasting booth is fully enclosed and has a full dust extraction system, an under floor grit recovery and recycling system, appropriate firefighting system and an effective waste management system. This gives the Production Team the capability to blast and paint products in the Specialist Services Jebel Ali Centre of Excellence yard.

The facility was inspected and approved for operation by Dubai Municipality and Civil Defence on 25th February 2014. This facility will help Specialist Services to carry out blasting works with increased productivity while meeting all quality and HSE requirements.
